MAX PLUS

The most comfortable shared scooter riding experience available – paired with unmatched vandal-proof features and safe design.

Safe & Reliable

With high-performance, **automotive-grade design**, the Max Plus outperforms any other scooter on uneven terrain.

Effective Operation

An easy-to-use battery compartment cover for the scooter's swappable battery pack opens at any angle and retracts automatically, and **anti-theft battery cover** design promotes best-in-class security.

Built-In IoT

Built-in, secure **IoT integrated with the dashboard** helps the Max Plus offer abnormal situation alarms, thorough data collection and analysis, and rich API capabilities, all in a device that's incredibly secure and safe from vandalism.

A Comfortable Ride

With independent **left and right brake levers**, where the left controls a front drum brake and rear electronic brake and the right controls the rear drum brake and electronic brake, **a dual suspension and a dual kickstand**, you can ride comfortably, safely and efficiently anywhere.

MAX PLUS TECH SPECS

Max. Speed Limit (Configurable by FW)	25 km/h
Net Weight (±0.5 kg)	27.5 kg
Full Charge Trip*	≥ 50 km
Battery Capacity	36 V 551 Wh Lithium Battery
Gradeability	14% (Approx.8°) (Test under 75 kgs, approx.12 km/h)
Charging Time	Approx. 4 h (External 5A Charger)
Charging Temperature Range	Available (0~40 °C); Recommended (10~35 °C)
Battery Type	Swappable Battery
Charger	External Charger
IP Rating	Vehicle IPX4, Battery Pack IPX7, Controller IPX7
Motor Nominal Power	350 W
